JAKPAT SAARTAIAM

Senior-year Student

I am a final-year student interested in electronics, embedded systems, and software development. I have experience in programming, web development, databases, and microcontroller systems. I am eager to apply my skills in a real industrial environment and gain practical experience through this internship.

Education

2020- 2022

Lopburi Technical College

Higher Vocational Certificate (Diploma) in Electronics

GPA : 3.91

2024 - present

King Mongkut's University of Technology North Bangkok

Computer Electronics Engineering
Faculty of Industrial Technology

Additional Skills

- Programming
  : C, Python, Arduino
- Web Development
  : HTML, CSS, JavaScript, PHP
- Database: MySQL
- Microcontroller & Embedded Systems
  : Arduino, Microcontroller Programming
- AI Tools
  : ChatGPT , Google Gemini
- Microsoft Office
  : Word, PowerPoint, Excel

Internship Experience

Aug 31, 2020 – Oct 22, 2020

Electronics Technician Intern

Electronics Repair Shop, Lopburi, Thailand

- Assisted in inspecting and repairing electronic devices in the repair shop.
- Repaired various electrical and electronic appliances such as televisions, fans, rice cookers, and electric pans.
- Learned to diagnose equipment malfunctions and perform basic troubleshooting.

Learning Outcomes : This internship helped me gain basic knowledge of electronic equipment repair and improve my practical skills, problem-solving ability, and attention to detail. when working with electronic devices.

2021 - 2022

Camera Repair Technician (Intern)

Sony Technology (Thailand) Co., Ltd., Chonburi, Thailand

- Performed inspection and repair of digital cameras.
- Diagnosed camera malfunctions and disassembled equipment to inspect internal components.
- Repaired faulty parts and reassembled devices to test their functionality.

Learning Outcomes : This internship helped me gain experience in inspecting and repairing digital cameras, working carefully with electronic components, and following company procedures while collaborating with others in a real work environment.

Competition Experience

2021

C Programming and Arduino Skills Competition

Suphanburi Technical College, Thailand

- Participated in a C Programming and Arduino Skills Competition. Won 1st Place among 4 teams at the provincial level.
- Selected as a provincial representative to compete at the regional level and ranked 8th out of 12 teams.

Learning Outcomes : Improved problem-solving, programming, electronics knowledge, and teamwork skills while working under time constraints.

Leadership Experience & Activities

2024 – Present

Class President – Computer Electronics Program

College of Industrial Technology, King Mongkut's University of Technology North Bangkok

- Acted as a representative coordinating between students, lecturers, and the faculty.
- Participated in planning and organizing orientation activities for new students.
- Assisted in organizing and coordinating university sports activities.

Learning Outcomes : This experience helped me develop leadership, teamwork, event planning , and coordination skills while working with diverse groups of people.
